

# NANO LCR SOUNDBAR

ON-WALL 3.0

## NANO LCR SOUNDBAR

ON-WALL 3.0

Triad's Nano LCR Soundbar features a premium, aluminum enclosure and three discrete sound channels to integrate seamlessly with shallow televisions. These compact speakers allow higher output than your television's built-in sound system, delivering precise audio distribution and intricate sound reproduction.

Combine exceptional audio and aesthetics with custom designs—offering lengths to match your television and custom finishes to match walls, millwork, and other décor. With 2" drivers and three channels, the Nano LCR produces authentic front-channel audio with low distortion. Pair with a Triad Omnisub as well as additional sat/surround speakers for complete surround sound.

In an industry of generic, mass-produced products, Triad soundbars combine craftsmanship and customization, preparing products according to every order. Each speaker is handcrafted with proprietary drivers and a fully damped, braced enclosure for authoritative, intricate playback. Providing subtle elegance while retaining the integrity of sound, Triad soundbars take your movie experience to a new level.

## FEATURES

- Ultra-compact shape
- Only 1.6 inches deep by 3 inches high
- Easy-mount installation
- TV mounting bracket included
- Custom paint matching available

## ENCLOSURE

- Acoustic suspension
- Two-way design
