

## OW BRONZE SURROUND

Never before has Triad offered such a reasonably priced and unique solution to the problem of integrating surround sound into a home theater environment. The OnWall Bronze Surround was designed to provide an enveloping surround field when used with better A/V receivers in moderately sized rooms, with both analog and digital sources. While the default configuration is bipole, you can specify your Bronze Surrounds as dipoles if you wish, as they are built-to-order in America, especially for you.

This compact surround speaker is available in either black or white, and can be custom paint matched to your environment by Triad for truly invisible sound. When used with Bronze LCRs and Triad Subs, the OnWall Bronze Surround completes the perfect home theater and music system for the enthusiast on a budget.

Category: Home Cinema

Tag: OnWall

### Features

Dipole and Bipole versions available.  
Compact Design.  
Triad AcoustiPerf metal grill.

### Enclosure

Fully engineered, Premium MDF enclosure.  
Acoustic Suspension.

### Finishes

Triad's Basic & Custom Finishes are available for this product. The standard finish for this product is White paint. For any other colors, please refer to Triad's Custom Match Finish program for this product. The paint we use is a top quality enamel and is applied with a light pebble finish.

Since all computer monitors and their colors vary, the digital color you see here will be different from the actual product finish.
