

VersaBox Pro XL

— STORAGE —

Ultra-thin flat panels have met their match in the Strong™ VersaBox™ Pro XL. Designed for the Samsung One Connect Box, the VersaBox Pro XL offers plenty of storage space for sleek custom installations.

Spacious Design

The VersaBox Pro XL measures 14" x 20" and fits all generations of the Samsung One Connect Box, even the largest 8K version. Additionally, with the extra space the XL provides, there's plenty of room to add and store additional equipment.

Safety & Strength

The VersaBox Pro XL's metal construction is tough, sleek, and UL 2416 certified for fire safety, making it perfect for home or business installation.

Cool Operation

The VersaBox Pro XL features a vented cover that lets heat escape, allowing devices to run smoothly for years to come.

Easy to Service

The VersaBox Pro XL features a hinged shelf that lifts out of the way, so equipment is accessible without tearing the system apart, making troubleshooting and service calls a breeze.
